

Men's 12 Week Domestic Violence Program

The twelve week program provides information, counseling and guidance to men in order to understand their past behavior and control their future behavior. The program examines physical violence and focuses on the devastating effects of emotional and sexual abuse in intimate relationships. A cognitive behavioral approach is utilized with regard to recognition of escalating behaviors and developing a personal control plan.

The program is designed for court mandated probationers. Voluntary participants are permitted if space allows. The program is scheduled in fifteen week increments. Participants are required to attend an intake and one session per week for twelve sessions. A maximum of two misses are allowed. More than two misses will result in discharge from the program.
