

Men's 6 Week Domestic Violence Program

The six week program provides information and guidance to men in order to understand and control their future behavior. The program examines physical violence and focuses on the devastating effects of emotional and sexual abuse in intimate relationships. A cognitive behavioral approach is utilized with regard to recognition of escalating behaviors and developing a personal control plan.

Participation in the six week program is determined by a criminal record check. Any client with a record of previous assaults or recent felony convictions will be required to complete the twelve session program.

The program is designed for court mandated probationers. Voluntary participants are permitted if space allows. No misses are allowed. Any misses result in discharge from the program.
